THE  
BEST  
FOR  
THE  
BEST

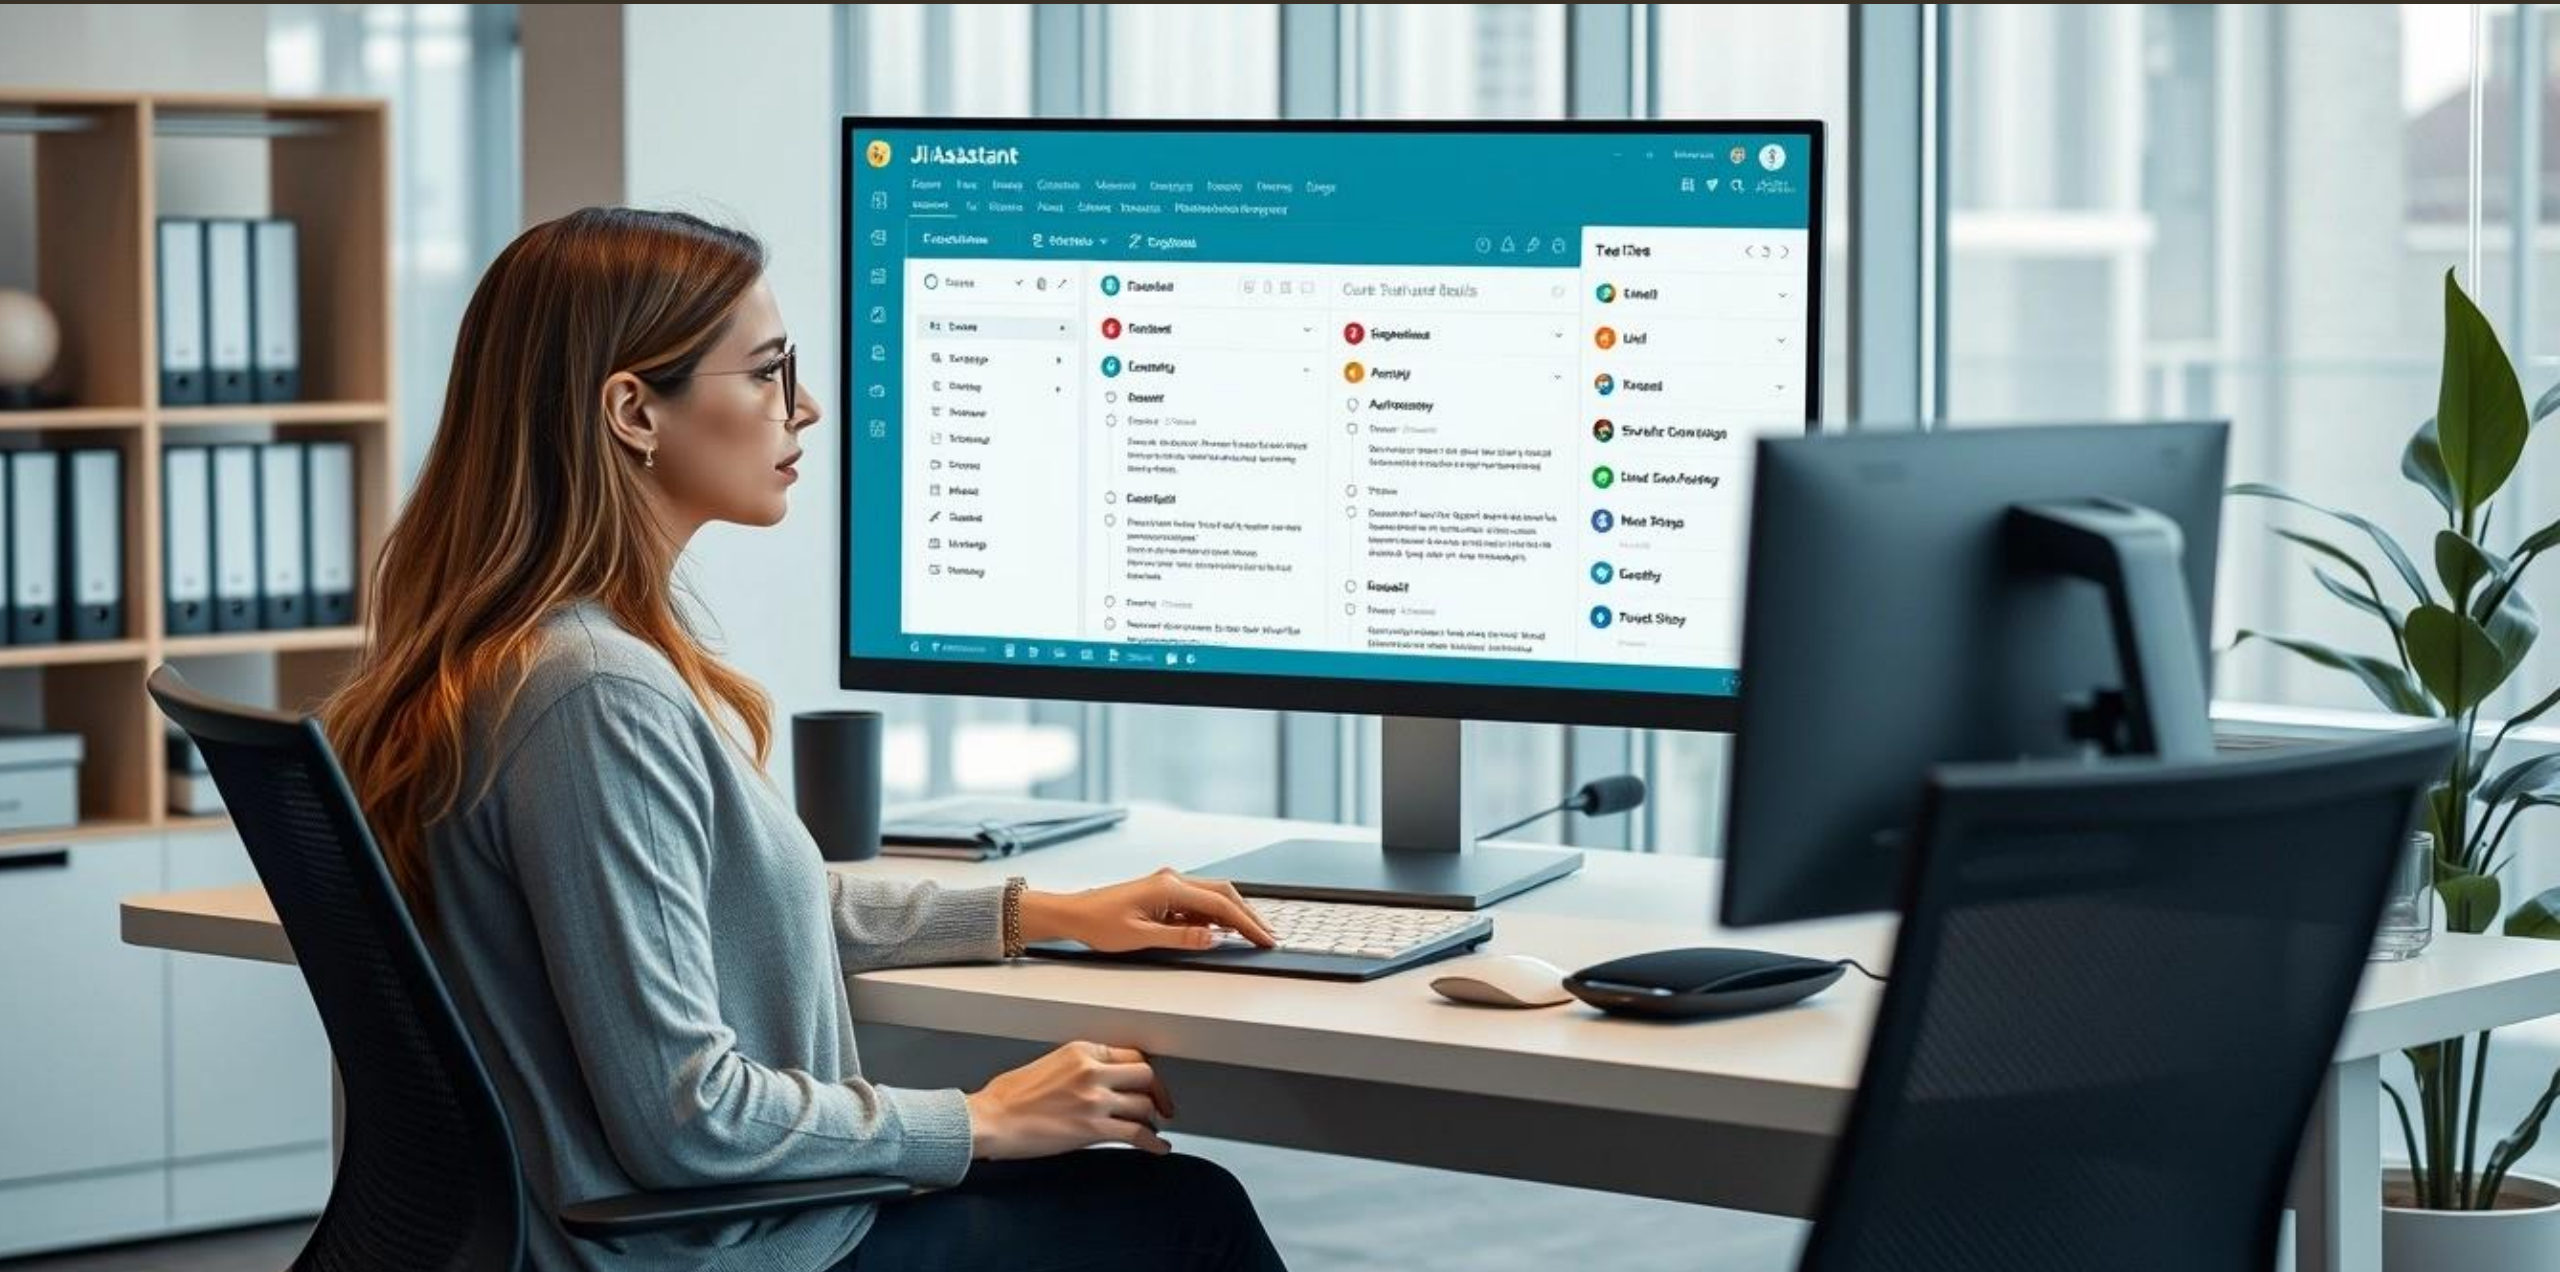

Would you use a product that creates your GROCERY list for you?

Would you use a product that writes your user stories?

Would you trust a  
product enough to let  
go?

Co-pilot

auto-pilot

# Co-pilot or auto-pilot

How much **time** does  
the user have?

Is the task  
**repetitive**?

is the user willing to  
let go of **control**?

# Mastering auto-pilot success

(AKA the road to the perfect employee)

## 1. Choose auto-pilot wisely

use auto-pilot for repetitive tasks users don't enjoy and a ready to hand off

## 2. Trust takes time

Leverage co-pilot capabilities and focused tasks to gradually build trust

## 3. Evaluate success like an employee

Focus on metrics that show tasks are handled well and trust is building
